POLYURETHANE, PVC Column Wrap

Legen—The Innovation Leader in Polyurethane Decorative Materials

As a prominent manufacturer in the polyurethane decorative materials sector, Legen has over 30 years of deep expertise in product design, manufacturing, and process & product innovation. Leveraging our industry heritage, we offer thousands of decorative millwork accents for global clients — covering moldings, trims, shutters, beams, and more across indoor & outdoor spaces. Our artistic products unlock boundless design possibilities, catering to custom needs for all styles and scenarios.

Core Product Advantages Unmatched Durability: Crafted from lightweight yet high-strength polyurethane, our products resist warping, cracking, moisture, and insect infestation. They retain long-lasting beauty even in outdoor environments, with extremely low maintenance costs.

Hassle-Free Installation: Products feature strong adaptability and user-friendly design, enabling easy decorative upgrades for both indoor and outdoor spaces.

Flexible Processing: Can be cut and trimmed using standard woodworking tools (table saws, circular saws, jigsaws, etc.), supporting personalized size requirements.

(Installation instructions for all Legen products are available on our official website: www.legenpu.com/Catalog.html)

Legen

US UL GREENGUARD GOLDEN VALUE & LEGEN PART SGS MEASURED VALUE

Criteria	Unit	UL GREENGUARD Golden	Legen part SGS measured
Total Aldehydes(B)	ppb	43	2.45
TVOC(A)	μg/m ³	220	25
Formaldehyde	μg/m ³	9	3
methyl benzene	μg/m ³	751	3
Xylene mixture of isomer	μg/m ³	865	4
n-hexane	μg/m ³	1755	3
cyclohexane	μg/m ³	3429	5
4-Phenylcyclohexene	μg/m ³	Cannot detection	Not detection
Particle Matter less than 10 μm @/ PM 10	μg/m ³	20	Not applicable

Product Characteristics

Insect and Mildew Resistance
Low water absorption. Could not get moldy even put in water for long time; Also can effectively prevent the damage of termites and insects to products.

Dimensional Stability
Small thermal expansion and cold contraction, excellent dimensional stability

Profiling Performance
Superb mold technology enables the product surface possessing realistic wood-grained texture.

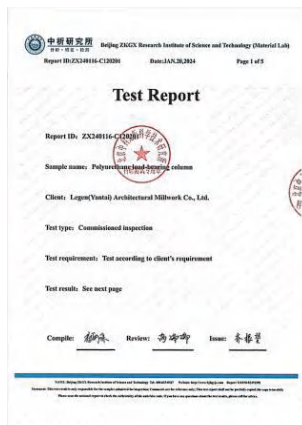

Eco-friendly Material
Adopted full water foaming system and water-based paint, all the products meet the EU SGS-SVHC standards, VOC content lower than the EU and American standards.

Durability
Subsequently formed polyurethane and the previously formed waterborne film can be perfectly adhered together without peeling off and discoloration · same life as building.

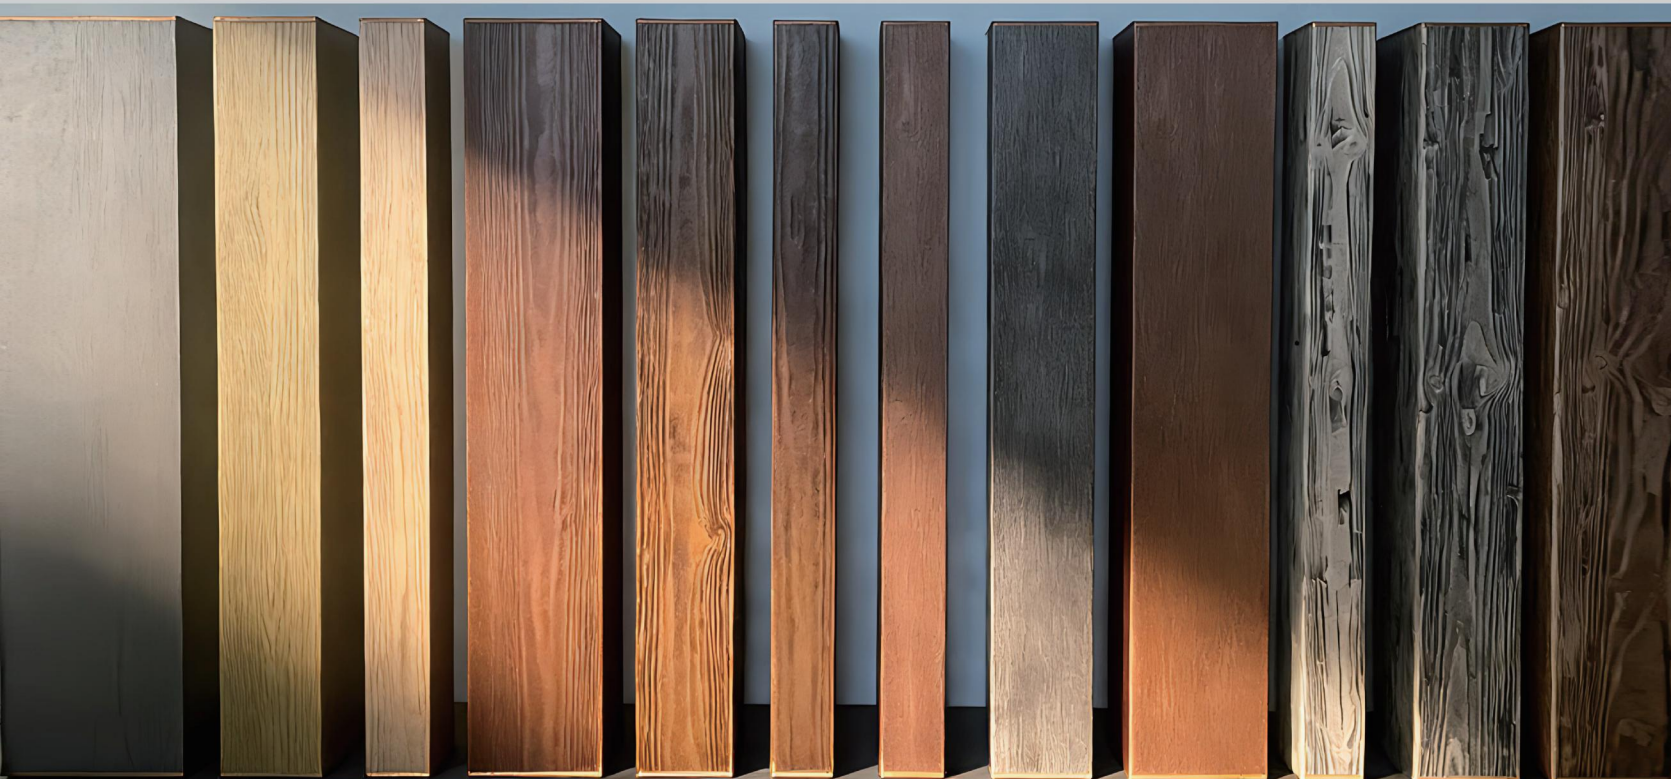

Customizable
Customizing customers' personalized products according to the requirements.

Multiple Color Options for Woodgrain PUR

Real wood look, urethane strength. Our durable polyurethane collection features authentic woodgrain textures and a versatile range—including Shutters, Corbels, Louvers, and Beams. Create a distinctive, long-lasting look for any home with the perfect blend of style and performance.

LEGEN specializes in polyurethane: designing innovative products with precision molding technology.

The Beauty of Urethane

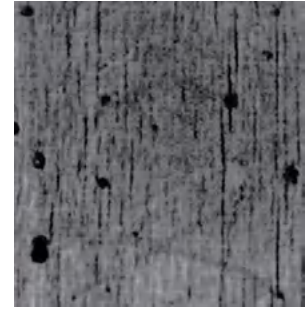

MOISTURE RESISTANT

Urethane millwork's closed cell structure prevents water penetration and absorption.

SPLINTER RESISTANT

Urethane millwork does not splinter like wood. If surface blemishes occur during installation, they can be easily repaired with ordinary plastic wood filler.

INSECT RESISTANT

Urethane millwork provides a practical alternative if you want the look of real wood detailing for your projects, but live in an area that is prone to insect infestation. Urethane Millwork/Wood Considerations.

Urethane Millwork VS. Wood Considerations

	URETHANE MILLWORK	WOOD
Quality composition	Consistent quality; No waste; Consistent finish	Quality varies; Knots and gouges result in waste; Blotching, Disappearing grain and discoloration can occur
Versatility	All products suitable for interior or exterior application	Different grade of material and finish required for outdoor application
Durability	Resists warping or splitting; Resists weather damage and insect infestation	Can warp; Susceptible to splitting; Susceptible to rotting and insect damage
Labor Savings	Requires no sanding, Priming or sealing; Moulding easy to install	Requires sanding, Priming and sealing; Intricate moulding require multiple application process incurring high labor costs
Value	Reasonable, stable price; Long lasting good looks with low maintenance; Increases home/building resale value	Market price fluctuates; Requires periodic maintenance; May need replacement/refinishing as damage occurs

width

Elliptical Shutters – Plate & Batten

Part#	Width	Height(H1)	All Height(H2)	Projection
ST2EP2T W X H1 X H2 CRS	12"(305mm)	Min24" (610mm)	Max:120" (3048mm)	
ST3EP2T W X H1 X H2 CRS	14"(356mm) 18"(457mm)	in 1/4"(6mm) increments	In 1"(25mm) increments	2"(51mm)
ST4EP2T W X H1 X H2 CRS	24"(610mm)			

PART NUMBER LOGIC

ST3EP2T14X24X28CRS

Note: Minimum height(H2) for Elliptical Plank shutters is double the width of the shutter.

Example: ST3EP2T14X24X28CRS – 14"(356mm) = width of shutter and 28"(711mm) = height(twice the width).

If a specific radius is required to complement an elliptical-shaped window, contact your customer service representative to order.
